

MD. FAKRUL HASSAN

FULL STACK WEB DEVELOPER

Email: ifakrul231@gmail.com

Phone: 01987668401

Location: Chandpur, 3602, Bangladesh

Portfolio: <https://fakhrul-portfolio.vercel.app/>

PROFESSIONAL SUMMARY

Highly skilled and result-oriented **Senior Full Stack Developer and SaaS Architect** with a robust background in building custom, modern, and powerful web applications. Expertise lies in leveraging **PHP with the Laravel Framework**, combined with dynamic frontend solutions using **React.js and JavaScript ES6**. Proven ability to craft scalable architectures, integrate advanced AI automation (OpenAI/Claude API), and design high-performance admin dashboards. Dedicated to clean, secure, and fully optimized code that prioritizes excellent user experience (UI/UX). Specializes in delivering end-to-end full-stack solutions, from RESTful API design to robust MySQL database engineering and maintainable SaaS platforms.

TECHNICAL PROFICIENCIES

Backend & APIs:	PHP, Laravel Framework, Node.js, RESTful API Design, JWT Authentication
Frontend Engineering:	JavaScript (ES6+), React.js, Redux State Management, Tailwind CSS, Next.js
Databases & Tools:	MySQL, Git & GitHub, AI API Integration (OpenAI/Claude), SaaS Architecture

PROFESSIONAL EXPERIENCE

Full Stack Developer

Jan 2023 – Present

Self-Employed (Freelance) | Chandpur, Bangladesh

- With 3 years of experience as a results-driven Full-Stack Developer, I specialize in building scalable, clean, and high-performance web applications using React.js, Next.js, Node.js, and Laravel.
- Skilled in both front-end (React/Next.js) and back-end (Node.js/Laravel) development, with a strong focus on secure API design and MySQL database integration.
- Successfully deliver end-to-end web solutions from concept to secure production deployment.

EDUCATION

Bachelor of Science in Computer Science and Engineering

Jan 2020 – Jan 2024

World University of Bangladesh | Dhaka, Bangladesh

- Completed a comprehensive curriculum in Computer Science & Engineering, specializing in backend architectures and modern frontend frameworks.
- Developed full-stack dynamic web applications using PHP Laravel and JavaScript stacks as part of academic coursework.
- Gained deep theoretical and practical knowledge in Relational Databases (MySQL), REST API designs, and secure software development lifecycle (SDLC).

ACCOMPLISHMENTS

- **Successful Project Deliveries:** Successfully built and deployed 20+ custom web applications and SaaS platforms using PHP Laravel and React JS, maintaining a 100% client satisfaction rate on freelance platforms.
- **Performance Optimization Achievement:** Optimized database queries and backend logic for a high-traffic application, resulting in a **40% reduction in page loading time** and significantly improving user experience.
- **Advanced Tech Integration:** Pioneered the integration of AI automation features (such as OpenAI and Claude APIs) into existing business management tools, increasing operational efficiency for clients.
- **Academic Milestone:** Successfully designed and developed a complex, full-featured Capstone Project during my Bachelor's degree in Computer Science and Engineering, demonstrating exceptional problem-solving and software engineering capabilities.
